Activity Report- VAC - Qualitative methods in health research

Title: Qualitative Methods in Health Research

Objective:

- Qualitative Research Methods provides much richer, in-depth information, which often is helpful in gaining insights into subtle nuances of human behaviour.
- It is especially effective in obtaining culturally specific information, viz. values, opinions, behaviours, social contexts, etc. which has relevance in understanding as well as explaining health and demographic outcomes.
- The short-term training programme envisages to provide knowledge about the various tools and techniques of qualitative methods and their application in demographic and health research.

Date: 14th-18th December 2020

Location: The Oxford Dental College, Bangalore

Organized by: Department of Periodontology

Audience: 2nd year PGs from the Department of Periodontology

Speaker: Dr. Ashish S. Nichani

Method adopted: Lecture, hands on experience and live demonstration

Materials used: Power point presentation, pamphlets, flyers, banner, back drop and videos

Description: It enabled students to learn about data collection, description, analysis and interpretation in qualitative research. The ingredients required for this process: data collection and analysis were discussed. The focus was on collecting data through observation and interviewing and on analysing and interpreting the collected data in other assignments.

The speaker, Dr. Ashish S Nichani discussed the most important concepts in qualitative research along with quality criteria, good practices, ethics, writing some methods of analysis, and mixing methods.

The event was conducted between 14th-20th December 2020 and was well appreciated by the 2nd year PG students.

Outcome Analysis -

It enabled students to learn about data collection, description, analysis and interpretation in qualitative research. The ingredients required for this process: data collection and analysis were discussed. The focus was on collecting data through observation and interviewing and on analysing and interpreting the collected data in other assignments.

Activity Report - VAC - Patient relationship management.

Title: Patient relationship management

Objective: To know in detail about the patient confidentiality and database.

Date: 28-12-2020 to 05-01-2021

Time: 03:00 - 05:30 pm

Location: The Oxford Dental College, Bangalore

Organized by: Department of Prosthodontics

Audience: 1st year Prostho PGs and final year Bds

Speaker: Dr. Navita Verma

Method adopted: Lecture, hands on experience and live demonstration

Materials used: Power point presentation, pamphlets, flyers, banner, back drop and videos

Description: Dr. Navita Verma (Keynote Speaker), conducted a panel discussion on Patient Relationship Management. Patient relationship management enables healthcare providers to deliver better care and improves access and communication that ultimately improves patient outcomes. It helped in how to access and communicate using patient's name, make eye contact with patient as often as possible. The program highlighted on how to take active role in their therapy care. When it comes to increasing patient number and keeping your clinic financially sound, there is no better solution than patient relationship management. It also helped the students to know in detail about the patient confidentiality where the patient records or communication are dealt with privacy and hold information in confidence.

Outcome Analysis - 54 students benefited with this course, as they came across different aspect of clinical management and database record managing. Additionally, speaker also covered how to manage clinics after completion of course.

Activity Report VAC – Building Resilience

Title: Building resilience

Objective: To help students understand regarding building resilience.

Date: 8/01/2021 - 16/01/2021

Time: 3:00 -6:00 pm

Location: 3rd BDS classroom 7th floor

Organized by: Department of Pediatric and preventive dentistry

Audience: Faculties, Interns and PGs of department of pediatric and preventive dentistry,
The Oxford Dental College

Speaker: Dr KT Shwetha, Psychologist, Resource center for psychological wellbeing

Method Adopted: Lecture with Audio visual aids

Materials used: Power point presentation

Description: Department of Pediatric and preventive dentistry of The Oxford Dental College had conducted a Value added course on "Building resilience" for Staffs and PG students on 8th January 2021. The proceedings of the session started off with a lecture by Dr KT Shwetha, Psychologist, Resource center for psychological wellbeing. The lecture varied on a variety of topics. About 32 students attended the programme. Question answer sessions were held after each programme. Feedback forms were given to participants, to evaluate the success of the program as well as grading the participants.

Outcome Analysis –The value-added course conducted for Staffs and PG students was a great success, and students were able to learn about topic which will help in their future with clinical practice and curriculum.
