### **Activity Report**

**Title:** Patient Awareness

**Objective:** To create awareness among patients and students at the oxford dental college

**Date:** 05.08.2020

**Time:** 10.00 am to 02.00 pm

**Location:** Seminar Hall

**Organized by:** Department of conservative dentistry and endodontics

**Audience:** Students, Staff, Patients and General public

**Speaker:** Dr. Sirekha

**Method adopted:** Lecture/Walkathon/Skit/Collage/Rangoli

**Materials used:** Pamphlets, flyers, banners, models

**Description:** Dr. Sirekha gave awareness lecture on patient awareness program. Practicing hand hygiene is a simple yet effective way to prevent infections. Cleaning your hands can prevent the spread of germs, including those that are resistant to antibiotics and are becoming difficult, if not impossible to treat. On an average, healthcare providers clean their hands less than half of the times they should. Staff and students took an oath of practicing hand hygiene on a regular basis,

### **Awareness Program for Patients**

#### **Department of Periodontology**

**Date:** 07/09/2020

**Place:** Department of Periodontology

**Organisers:** Department of Periodontology

**Type of Camp:** extension activity

**Camp Incharge:** Dr. Shanmukha Swamy

**Staff Attended:** Dr. A.R Pradeep, Dr. Savitha AN, Dr. Praveen J, Dr. Shobha KS, Dr. Amitha, Dr. Imran, Dr. Koel, Dr. Sindhu

#### **Agenda of the Programme:**

Maintenance of oral hygiene is one of the most important yet neglected practices by most. Oral hygiene is vital to general health and wellbeing at every stage of life. To lead a healthy life, one must pay attention to how their oral cavity is being maintained and should take utmost care of it as oral health plays a major role and indicates that the gums, teeth, and oral mucosal tissues healthy, undamaged, and free if disease. The quality of life improves and the ability of the patient to eat, sleep and perform better in their day-to-day activities.

The department of Periodontology conducted the program to make the public aware of the various oral hygiene practices and to understand the COVID protocol in the day-to-day life.

#### **Team:**

Our team consisted of a faculty member and 8 dentists perusing post-graduation in the Department of Periodontology, The Oxford Dental College, Bangalore.

#### **Date and Time of The Visit:**

On 7<sup>th</sup> of September (Wednesday), 2020 at 11:00 am.

#### **Location:**

OPD section of Department of Oral Medicine & Radiology, The Oxford Dental College, Bommanahalli.

#### **Target Population:**

Around 50 patients in the age group of 5-60 years were addressed.

#### **Brief Summary:**

Website: www.theoxford.edu

To lead a healthy life, one must pay attention to how their oral cavity is being maintained and should take utmost care of it as oral health plays a major role and indicates that the gums, teeth, and oral mucosal tissues healthy, undamaged, and free of disease. The quality of life improves and the ability of the patient to eat, sleep and perform better in their day-to-day activities.

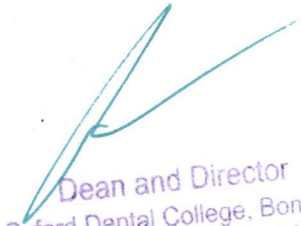

The various oral hygiene measures one can take to maintain the oral health includes:

Use of toothbrush and toothpaste, Brush twice a day at morning before food and night after food, use of dental floss, Use of tongue cleaner to keep the tongue clean, Use of mouth rinses as recommend by the dentist and visit the dentist regularly.

Oral Health Awareness programmes are usually conducted in institutions to instil upon the children the importance of oral hygiene and to teach them the correct methods of brushing and to enable them to develop the habit of brushing their teeth twice a day and to use other oral hygiene aids like tongue cleaners etc.

Thereby to conclude, most of our nutrition is derived from the food we eat and everything we eat first passes through the mouth. Therefore, to keep oneself healthy one should maintain proper oral hygiene and should make sure to keep the mouth clean. Therefore, a healthy mouth suggests a healthy body.

The campaign was held in adherence to COVID-19 protocol and guidelines. It was mandatory to maintain physical distance, to wear masks and wash hands during the activity. Crowding was avoided at booths and only one caregiver was allowed to accompany each beneficiary.

### **Covid-19 Vaccination Awareness**

**Date:** 22/02/2021

**Place:** Department of Periodontology

**Organisers:** Department of Periodontology

**Type of Camp:** extension activity

**Camp Incharge:** Dr. Shanmukha Swamy

**Staff Attended:** Dr. Shanmukha Swamy, Dr. Ashish, Dr. Shobha, Dr. Praveen J, Dr. Koel, Dr. Imran

#### **Agenda of the Programme:**

Since the World Health Organization (WHO) has declared COVID-19 outbreak a pandemic back on 11<sup>th</sup> March 2020, the virus has claimed more than 2.5 million lives globally. COVID-19 vaccination is now offering a way to transition out of this phase to pandemic. Without them, many scientists believe that natural herd immunity would not have been sufficient to restore society to its normal status and that it would have resulted in extreme fatality.

#### **Team:**

Our team consisted of a faculty member and eight dentists perusing post-graduation in the Department of Periodontology, The Oxford Dental College, Bangalore.

#### **Date and Time of The Visit:**

On 22<sup>nd</sup> of February (Monday), 2021 at 10:00 am.

#### **Location:**

The Oxford Dental College

#### **Target Population:**

The patients visiting the Oxford Dental College

#### **Brief Summary: -**

Currently, a total of seven COVID-19 vaccines available across three platforms have been approved and are being rolled out across the globe. However, some question the efficacy of these vaccines, especially given the emergence of new strains of the virus. Vaccines must be effective at significantly reducing the spread of the virus for them to be successful.

However, some question the efficacy of these vaccines, especially given the emergence of new strains of the virus. Vaccines must be effective at significantly

reducing the spread of the virus for them to be successful. COVID-19 vaccines are safe. COVID-19 vaccines were developed using science that has been around for decades. The vaccines are not experimental. They went through all the required stages of clinical trials. Extensive testing and monitoring have shown that these vaccines are safe and effective. These vaccines have received and continue to undergo the most intensive safety monitoring in U.S. history. The vaccines are effective. They can keep you from getting and spreading the virus that causes COVID-19. The COVID-19 vaccines also help keep you from getting seriously ill even if you do get COVID-19. Getting vaccinated yourself may also protect people around you, particularly people at increased risk for severe illness from COVID-19.

The program was conducted keeping the COVID protocol in mind with maintain the social distancing.

**Oral Hygiene Day**

**Date:** 01/08/2020

**Place:** Department of Periodontology

**Organisers:** Department of Periodontology

**Type of Camp:** Extension activity

**Camp Incharge:** Dr. Ashish S Nichani

**Staff Attended:** Dr. Savitha AN, Dr. Shanmukha Swamy, Dr. Shobha, Dr. Praveen J, Dr. Amita, Dr. Imran, Dr. Koel, Dr. Sindhu

**Agenda of the Programme:**

1<sup>st</sup> August is celebrated all over India as Oral Hygiene Day in the loving memory of Dr. G.B. Shankwalkar who was a renowned Periodontist and the founder of the Indian society Of Periodontology.

Oral hygiene is inseparable from the overall hygiene and forms the most critical and neglected aspect of all the hygiene practices. Therefore, it is our duty that we as dentists make constant efforts to spread the awareness and knowledge about the importance of oral hygiene amongst all sections of society.

In this regards the department of Periodontology had organized Oral Hygiene Day to educate and motivate the patients regarding the importance of this day.

**Team:**

Our team consisted of a faculty member and sixteen dentists perusing post-graduation in the Department of Periodontology, The Oxford Dental College, Bangalore.

**Date and Time of The Visit:**

On 1<sup>st</sup> August 2020 at 11.00 am.

**Location:**

The Oxford Dental College, Bommanahalli.

**Target Population:**

The patients who came for Treatment in The Oxford Dental College

**Brief Summary:**

The Department of Periodontology celebrated this day today in our college by organizing Oral Health Awareness Campaign for all the patients visiting our institute. Thanks to our HOD for his constant support and guidance the campaign was successfully completed.

**The Department of Periodontology had organized following the programs: -**

1. Talk on Dental Profession: the importance of oral hygiene and how to maintain an optimum oral health.
2. A free dental Check-up for all our teaching and non-teaching faculty, housekeeping staff, undergraduates, and postgraduates' students.
3. A free dental check-up and treatment was arranged for all the patients visiting the institution on the same day by the department of Periodontology.
4. There were poster model and video demonstrations for various plaque control measures by the postgraduate's students.
5. Oral hygiene techniques were demonstrated by the Interns.

Sub:- Appreciation Letter

Respected Madam,

I, Hereby the principal of the wisdom public school along with the teachers are thankful for this educative and informative health talk given to our school children by your post graduate students, Dr.Ashwini Koti and Dr.Rathnashree M V.

The doctors have conducted dental camp for students from 6<sup>th</sup> standard to 9<sup>th</sup> standard on 18/02/2021 in our school. They did oral screening and instructed the students with oral hygiene methods and dietary instructions to maintain healthy oral environment.

We appreciate the work and effort taken by your department of Pedodontics and preventive dentistry, The oxford dental college, Bangalore.

Thanking you,

Sincerely,

### **Activity Report**

#### **"Covid 19 vaccination Interaction and Side effects "**

**Title:** Covid 19 vaccination Interaction and side effects

**Objective:** To educate the audience about the covid 19 vaccine interactions and side effects.

**Date:** 26/04/2021

**Time:** 10 AM

**Location:** Oxford Dental College

**Organized by:** Department of Oral Pathology and Microbiology

**Audience:** 3<sup>rd</sup> BDS students

**Organizer:** Dr. Saleha J

**Description:**

The Department of Oral Pathology, Oxford Dental College has organized an extension activity on covid 19 vaccination interactions and its side effects. A total of 30 undergraduate students from Oxford Dental College were educated on the various interaction and side effects caused by the covid 19 vaccine.

During the activity, students actively participated and successfully ended the activity with positive feedback. The Organizing committee by Department of Oral pathology and students who participated were appreciated for all the efforts put to make the event a great success.

**Activity Report**

**Objective:** To facilitate in the conduct of Polio immunization drive by the Government of India.

**Date:** 31/1/2021

**Time:** 8:00 am to 12:00 pm

**Location:** Booth No.1, Government Primary Healthcare Centre, Begur road.

**Organized by:** The Oxford Dental College in collaboration with NSS wing of the college.

**Participants:** Post graduate students of the Dept of Public Health Dentistry.

**Method adopted:** Creating awareness in the community & helping staff in a Primary Health Centre in administration of polio drops.

**Description:** The campaign was held in adherence to Polio immunization programme protocol and guidelines. On 30/1/21, an awareness campaign was conducted around Government Primary Healthcare Centre, Begur road, Bangalore. Our team consisted of a faculty member and four dentists pursuing post-graduation in the Department of Public Health Dentistry, The Oxford Dental College, Bangalore. Inauguration was carried out by Dr. Smitha V Reddy (Medical officer - PHC Begur) at Booth no.1 at PHC Begur at 8:00 AM. It was mandatory to maintain physical distance, to wear masks and wash hands during the activity. Persons/children with fever/cough or other symptoms of COVID-19 were not allowed inside the booth. Crowding was avoided at booths and only one caregiver was allowed to accompany each beneficiary. Children immunized recently under the routine schedule and the new-borns were given 2 drops of oral polio vaccine. To identify the missed-out children, marking was done for all vaccinated children on the left little finger.

Around 648 children in the age group of 0-5 years were administered polio drops. Thanks to the successful implementation of the pulse polio immunization campaigns, the State entered the 17th polio-free year. It is essential to sustain the status and protect children from wild polio virus.

## Environmental awareness programme- Fire drill

### Activity Report

**Title:** Environmental awareness programme- Fire drill

**Objective:** To create awareness & giving students & faculty an opportunity to practice fire emergency procedures in a simulated but safe environment. Determining if they understand and can carry out emergency duties.

**Date:** 9/10/2020

**Time:** 10:00 am to 02:00 pm

**Location:** Oxford College campus

**Organized by:** NSS wing of The Oxford Dental College in collaboration with Fire Safety services, Karnataka & Dept. of Public Health Dentistry, The Oxford Dental College.

**Audience:** Faculty, Undergraduate & Post graduate students, non-teaching staff of the Oxford Dental College

**Method adopted:** Demonstration of fire drill.

**Description:** NSS wing in collaboration with The Department of Public Health Dentistry & Department of Fire Safety services, Karnataka state organized a live demonstration regarding the safety measures to be observed in case of fire accidents as a part of environmental awareness programme. A team from the Fire safety services arrived in the college at around 10:00 AM. They were given a welcome speech by one of the faculty of the Department of public health dentistry then they were addressed by the Dean and Director of the college. All the students, staffs and non-teaching staff of The Oxford Dental college gathered in the college campus to witness the fire demonstration. The team from Fire safety services carried out live fire demonstration and mock drill. Mock exercises on various types of natural hazards helped in inculcating a culture of preparedness and generate awareness. This greatly helped in creating awareness to deal in any case of emergency. It may be ensured to conduct demonstrations at periodic intervals so that all the people of the institution are familiarized with the usage /working of Fire Extinguishers, Hose Reel, Wet riser, Fire alarm System (manual and automatic) and Sprinkler System. This was followed by vote of thanks by one of the faculty of the Department of public health dentistry. A bouquet of flowers and memento were handed over to the team of fire safety officials by the Dean and Director. The fire drill was an eye opener to all the students and staffs of the institution.

### **Activity Report**

**Title:** Awareness programme about Road Traffic rules

**Objective:** To provide awareness about traffic rules and regulations to be followed, safety measures while driving, thereby minimizing the risk of road accidents.

**Date:** 19/02/2021

**Time:** 10:30 am to 1:30 pm

**Location:** Government upper primary school, Jigala village, Anekal Taluk, Bangalore district.

**Organized by:** NSS wing and Department of Public Health Dentistry of The Oxford Dental College.

**Audience:** General population of the village.

**Speaker:** Dr. Vinod, Post graduate student, Department of Public Health Dentistry.

**Method adopted:** Lecture

**Materials used:** Power point presentation, pamphlet.

**Description:** Road safety education and traffic management plays an important role in shaping the attitudes and behaviours of children and young people thereby ensuring them to become responsible drivers, passengers, pedestrians, and cyclists. Traffic education and its importance in daily life explained by post graduate students and interns to the villagers through power point presentation, flip charts and by showing videos.

The presentation included traffic rules and regulations for pedestrians, safety measures while driving, traffic signs and signals, divisions of roads into foot path, road divider, zebra crossings. This in turn helps in reducing the time of travel, reducing the possibility of avoidable accidents by paying attention to the road, adjustment of speed according to the poor weather conditions etc.

**Activity Report**

**Title:** Awareness Regarding Safe Water and Water Conservation Under Jal Sakthi Abhiyan

**Objective:** To provide an insight about the importance and various methods of water conservation to the villagers.

**Date:** 13.02.2021

**Time:** 10:00 am to 02:00 pm

**Location:** Jigala village, Attibele

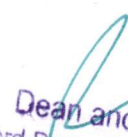

**Audience:** Residence of Jiggala village

**Speaker:** Dr. Visakha

**Method adopted:** Lecture and home visit

**Materials used:** Power point presentation, placards

**Description:** A team of 5 postgraduates and 3 interns from the Dept. of Public Health Dentistry visited Jigala village on 13/2/2021 for educating the people about water conservation. The team reached the village by 10:00 AM. The village people were informed prior about the programme. The villagers were asked to assemble in the Jigala Govt Primary school. An awareness talk about water conservation was done and villagers were made to understand about the water scarcity and methods to reduce wastage of water. Through power point presentation, the postgraduates explained various method to conserve water both domestically and agriculturally. Household measures for reducing water consumption were given importance in the programme. People were enlightened about other water conservation strategies like regularly checking for and repairing water leaks in the faucets and building rainwater pits. People were educated about rooftop rainwater harvesting system as it is one of the most constructive and easy way to conserve water in the long run. The talk was followed by interactive session. After the programme the team visited individual houses and educated the people in person about various water conservation methods.

**Education for women through skit: "Women empowerment"- Government Higher  
Primary School, Jigala**

**Date: 6/02/2021**

From,  
Dr. Divya BM,  
NSS Programme officer,  
The Oxford Dental College,  
Bommanahalli,  
Bangalore-560068

To,  
Mr. Rakesh Reddy,  
BJP youth member,  
No. 22, Jigala village,  
Bidaraguppe gram panchayat,  
Bangalore-560068

Respected sir,

Subject: Permission to conduct "Village adoption programme" in Jigala village,  
Bidaraguppe gram panchayat from 8/February/2021 till 18/February/2021.

With reference to the above stated subject, we the team of NSS volunteers from The Oxford Dental College would conduct an awareness programme for the holistic development of the Jigala village population, in association with The Department of the Public Health Dentistry of the college. Programme will include Oral health awareness drive, oral disease screening and treatment, awareness regarding COVID-19 pandemic, shedding light on women empowerment, promoting cleanliness under Swachh Bharat Abhiyan, Ministry of India, creating awareness regarding safe water under Jal Shakti Mission, Ministry of India & adolescent education for women. We request your permission and co-operation for the facilitation of the programme. Kindly do the needful.

Thanking you,

Yours Faithfully,

Dr. Divya BM,  
NSS Programme Officer,  
The Oxford Dental College.

**Activity Report**

**Title:** Education for women through skit: "Women empowerment"

**Objective:** To create awareness among rural women the importance of being empowered. To improve their communication skills with other women in the society. It encourages them to develop their own identity.

**Date:** 15/2/21

**Time:** 11:30 am -1:00 pm

**Location:** Government higher primary school, Jigala

**Organized by:** Our team consisted of a faculty member and four dentists perusing post-graduation in the Department of Public Health Dentistry.

**Audience:** Around 20 women in the age group of 20-45 years and 10 children aged 10-17 years.

**Speaker:** Dr. M. Vinod kumar, PG Student.

**Method adopted:** Skit.

**Materials used:** Mike, Props, pamphlets, banner, back drop, and pictures.

**Description:** It provokes rural women to act on the social problems. It also motivates them to accept challenges faced only by rural women. It also stresses on the importance of education of girl child. Support personal development, social responsibility, and a sense of self-worth for the socially weaker women.

## COVID -19 Vaccination Program- Bruhat Bengaluru Mahanagara Palike

### Activity Report

**Objective:** To provide vaccination for health care workers in The Oxford Dental College.

**Date:** 20/01/2021

**Time:** 10:00 am to 02:00 pm

**Location:** Vaccination room, The Oxford Dental College.

**Organized by:** The Oxford Dental College in collaboration with NSS wing of the college & BBMP, Bruhat Bengaluru Mahanagara Palike.

**Vaccination adopted:** COVISHIELD Vaccine.

**Description:** With a population of 1.38 billion, in the initial phase of the COVID-19 vaccination programme, India aims at vaccinating 300 million people by August 2021, including 30 million health workers and frontline workers (eg: police, soldiers), and 270 million elderly people (ie, aged over 50 years) and people with co-morbidities. India has been initiated with two types of vaccines: Covishield (Serum Institute of India Ltd) and Covaxin (by Bharat Biotech International Ltd). In view to this, the vaccination campaign was conducted in The Oxford Dental college in collaboration with BBMP. The college was provided with the COVISHIELD vaccine. The vaccination programme was conducted on the ground floor of Oxford Dental College. Doctors, nurses, and the concerned officials from BBMP came to the college. A total of 485 people was vaccinated that included All the faculty, students & non-teaching staff as per the list of the eligible medical professionals, medical students, attenders etc which was made priorly by BBMP & College for vaccination. The eligible people were vaccinated using the COVISHIELD vaccine. People were made aware of the mild side effects which may occur after administration of the vaccine, which need not be worried about. People who were vaccinated were given instructions regarding the scheduled second dose of the vaccination.
